EVENT REGISTRATION FEE: Rs. 199 /- PER TEAM

TEAM SIZE: 2 MEMBERS PER TEAM

PRIZE POOL MONEY: Rs. 3250 /-

Event Description

Build the Thrust. Launch the Impossible.

Turn simple materials into a flying experiment with Water Rocketry. Design and build your own water-powered rocket, then put your engineering instincts, creativity and precision to the test at launch. From design and construction to the final flight, every decision matters. Build smart. Launch high. Reach beyond.

Constraints

- Team Size: Must contain **2 members per team**
- Teams must bring their own designed water-propelled rocket.
- Recommended bottle capacity: **1 Liter** PET soft-drink bottle

Design Details

- Participants should submit their design dimensions of their rocket as word document and their which includes,
 - ✓ Overall rocket length
 - ✓ Bottle/body diameter
 - ✓ Number and dimensions of fins
 - ✓ Nose cone dimensions
 - ✓ Nozzle/opening diameter
- Participants must attach their rocket as photo in word document comprising of top view, front view and side view.

Event Flow

- The rocket and design dimensions will be checked by the organizers.
- Each team is given two official launch attempts.
- The horizontal distance of each valid attempt is measured.
- The highest valid horizontal distance among the two attempts will be recorded as the team's final score.

- Teams may make adjustments between attempts only if permitted by the event organizer.
- Once an attempt begins, no modification is permitted.

Judging Criteria

 The team achieving the maximum horizontal distance will be declared the winner.

Tie-Breaker

- If two or more teams achieve the same maximum distance: Time of flight will be considered as next criterion.

The judges' decision will be final.
